## About US

Gyanvi Technologies Private Limited, We are a leading electric vehicle company that is passionate about driving a sustainable future. We believe that electric vehicles are the key to reducing our reliance on fossil fuels and improving air quality.

We offer a wide range of electric vehicles, from Two Wheeler E-Scooters and Three Wheeler E-Rickshaw.

Our company was founded in 2019 by a team of experienced EV enthusiasts. We are committed to providing our customers with the best possible EV experience, from sales and service.

We offer a wide range of EVs from a variety of leading manufacturers. We also have a team of experienced EV experts who can help you choose the right EV for your needs and budget.

In addition to selling EVs, we also offer a variety of services to support our customers, including:

- EV Batteries
- EV Charging installation and maintenance
- EV Repair and Maintenance
- EV Financing
- EV Insurance

If you are considering an EV, we encourage you to visit our dealership or website to learn more. We're your one-stop shop for everything EV. So whether you're just starting to think about making the switch or you're already an EV owner, we're here to help.
